## WANTS \$15,000 FOR AN EYE

J. C. O'Neil Sues Rio Grande Western for Damages.

J. C. O'Neil has filed an action against the Rio Grande Western railroad company to recover \$15,000 for the loss of an eye while he was in the employ of the company as a machinist in their Salt Lake shops. The accident occurred in October of last year, when an apprentice working with the plaintiff in some way struck him on the side of the head with a large hammer. The glasses that O'Neil wore were broken and the glass forced into one of his eyes, destroying the sight. The plaintiff alleges that the boy employed as an apprentice was wholly incompetent, and that it was on this account that the accident occurred. Maguire & Co. are attorneys for O'Neil, and the case has been filed in the Second district court.

## MAY RESTORE SANITY.

Surgeon Operation on David Jenkins the Only Hope.

David Jenkins, who was brought from the state mental hospital about a week ago for the purpose of having him undergo an operation in the hope of restoring his reason, was put under the surgeon's knife yesterday afternoon. It is not known whether the operation will be a success or not.

The operation was performed by Drs. Forbes, Rich and Osgood at the Ogden General hospital. A depressed fracture of the skull was discovered. This is said to be due to Jenkins having been kicked in the head by a horse when a boy. A bone from the skull was found to be pressing against the brain and a hard fibrous scar was also located on the brain cover. A piece of the skull bone was removed and the skull trepanned.

## County School Closing.

The school year of the county schools closed with the commencement exercises which were held in the Ogden tabernacle yesterday morning. For the pupils graduating from the eighth grade, there was a large attendance, and the building was prettily decorated for the occasion. The original programme was carried out and certificates were delivered to more than fifty graduates. The feature of the exercises was the address of Professor N. T. Porter of the University of Utah. The Ogden High School orchestra furnished the music.

## COMMENCEMENT EXERCISES

B. Y. University Gives Interesting Programme—Many State Notables Present.

Provo, June 1.—Commencement day of the Brigham Young university, and the Brigham Young family association reunion, held here today, gave the city a magnificent holiday appearance. Business houses were decorated with white bunting, blue, the university colors, and the national colors. The procession of the students to the tabernacle, where the commencement exercises were held, presented an inspiring scene as the young people marched to the strains of the University band, carrying flags and banners and enlivening the procession with class yell.

On the speaker's stand in the tabernacle were President Joseph F. Smith, President Anthony H. Lund, Superintendent H. H. Cummings, members of the board of trustees and faculty. A fine programme was rendered, consisting of vocal and instrumental selections. The commencement address, by Professor E. S. Hinckley, was an eloquent review of the history of the university and its work.

Addresses were made by Superintendent Cummings, Hon. R. W. Young and President Joseph F. Smith.

President Brigham Young of the university presented his annual report, which gave a review of the work highly creditable to the university and encouraging for its future growth and increased usefulness.

## CHANGES MADE ARE VERY FEW

Continued from page 1.

Joint rates shall apply when one of the connecting carriers is a water line. The time in which complaints for the recovery of damages may be filed with the commission is reduced from two years to one.

The senate receded from the McCumbe amendment changing the word "regularly" to "lawfully" in relation to service upon the carrier on notice of disobedience of orders from the commission.

The portions of all the Allison amendment covered by section 5 of the bill were all retained. The bill provides that suits may be brought in any of the circuit courts "against the commission; apply the expediting act to hearings on applications for preliminary injunctions; that no injunction or interlocutory order or decree suspending or restraining the enforcement of orders shall be granted except on hearing after not less than five days notice to the commission, and that appeals may be taken direct to the supreme court of the United States.

The senate amendment striking out the provision that whenever an order of the commission shall have been complied with for three years, it shall be no longer enforced, was agreed to.

### Liability Amendment.

The initial liability amendment relating to bills of lading was retained, but so amended as to place all carriers on an equality with reference to their liability. The initial carrier is made liable to the shipper, but such initial carrier is entitled to recover from the carrier in whose line the loss, damage or injury shall have been sustained.

The original provisions of the house bill enlarging the commission to seven members with terms of seven years and \$10,000 annual compensation, was restored, and a provision added for the secretary at \$5,000 and an assistant secretary at \$4,000. This provision was offered in the senate but voted down, and therefore is new legislation.

Another piece of new legislation is found in the last section, where provision is made that the bill shall take effect and be in force sixty days from and after its passage, instead of immediately upon its passage and approval.

### Heppburn Explains.

Representative Heppburn of Iowa, who introduced the railroad bill, said that he had presented the conference report to the house today. "I think the bill as a whole is excellent, and I have no doubt that it will bring relief with regard to all of the matters recommended in the message of the president." Mr. Heppburn explained that the house would not consider the report until after the senate had acted; that he expected the senate to take up the matter Monday, and that the house would follow Tuesday or Wednesday. "Generally speaking," he said, "the house confers recommended that the house recede from its disagreements to the senate amendments. This is not universally the case, and in a number of instances where the house confers have recommended concurrence it has been with an amendment."

### Brigham Young Family Reunion.

About 150 members of the Brigham Young family association came down over the San Pedro and attended the commencement exercises. In the afternoon the association held its annual meeting at the university, where a banquet was given in their honor by the faculty and students. The girls visited the arts and industries exhibit and made an inspection of the university, and in the afternoon visited points of interest in the city. In the evening a ball was given in their honor in Gymnasium hall.

## EUREKA HIGH SCHOOL.

Graduating Class Numbers Sixteen—Presents Splendid Programme.

Eureka, June 2.—The commencement exercises of the graduating class of the Eureka high school were conducted last evening at Odd Fellow's hall. The seating capacity of the building was taxed to its full capacity with the parents and relatives of the scholars and those interested in the school.

### A BOY'S ANSWER.

(May Lippincott's Magazine.)

"My son," said the strict mother at the end of a moral lecture, "I want you to be exceedingly careful about your conduct. Never, under any circumstances, do anything which you would be ashamed to have the whole world see you doing." The small boy turned a handspring, with a shout of laughter.

"What in the world is the matter with you? Are you crazy?" demanded the mother.

"No," was the answer. "I'm jes' so glad that you don't 'spec' me to take no baths never any more."

## ELEVEN KILLED TWENTY INJURED

Open Car Filled With Excursionists Tips Over With Fatal Results.

Providence, R. I., June 3.—A large fifteen-seated open car, chartered by a private party and returning to this city from Crescent park, left the rails on a sharp curve in East Providence last night and was overturned. Eleven persons were killed and twenty injured.

### The Dead.

John Snyder, Providence. Alice Franklin Magill, Thornton. Bertha A. Kelly, Thornton. A. G. Ambrosia, Thornton. Ethel Whitney, Providence. Gus Guetlin, Thornton. Bertha Franklin, Thornton. Four unidentified.

### Coming Home From Outing.

The car was chartered by a party from Thornton who were returning home after a day's outing at Crescent park. A resort on the Providence river. Moore's Corner, the scene of the accident, is five miles from Providence, and is situated midway between Crescent park and the town of East Providence.

On the Crescent park side of the corner there is a heavy grade, at the foot of which is a sharp curve. The car came down the grade at a rapid rate of speed, and, striking the curve, slipped from the rails and was overturned. The car left the rails with such great force that the body left the trucks and jumped into the air, and was scattered in all directions. The accident happened in a sparsely settled section, and it was some time before news reached this city.

### Work of Rescue.

Ambulances and physicians were immediately dispatched to Moore's Corner. In the meantime residents of the neighborhood did everything in their power to relieve the injured, some of whom were brought to the Rhode Island hospital here. Others of the injured were cared for in their homes.

Many of the victims at the accident were of English birth and were employed in the British Hosiery company mill and other textile factories at Thornton.

## Peterman's Roach Food

A BOON TO HOUSEKEEPERS.

The most improved method to free a house of large or small roaches is to use the contents of a box of "Peterman's Roach Food" at one time. Shake it on joints so some of it will penetrate and remain to keep the premises continuously free. Roaches eat it as food; it is the most destructive remedy on this earth to them, and it will not scatter them to other places to live and multiply.

**BEDBUGS.**—"Peterman's Discovery" (quickly) kills bedbugs. Bedbugs take it up in the circulation when going over where it is brushed on lightly. It's invaluable if brushed on beds when apart, and on back of picture frames, moldings, etc. It will not rust or harm furniture or bedding.

"Peterman's Discovery" (liquid)—In flexible, handy cans for cracks, walls, mattresses, etc. Odorless, non-explosive.

"Peterman's Ant Food"—A strong powder to kill and drive away ants.

"Peterman's Rat-mouse Food" makes rats or mice wild; they will leave and not return.

Take no other; as time may be even more important than money. Originated in 1873. Perfected in 1905 by Wm. Peterman, Mfg. Chemist, 54, 56, 58 West 18th St., New York City. London, Eng., Montreal, P.
